The Maverick HD combines commercial-grade construction with the comfort and performance Bad Boy is known for. Built in the USA on a heavy-duty 50 x 50 mm all-steel frame, it's made for demanding mowing while remaining comfortable and easy to handle.

Its 4.55mm (7-gauge) formed and welded steel deck features reinforced 9.5mm sides and a deep 140mm shell for improved grass lift and a clean, consistent cut. Dual Deck Support Isolators help protect against side impacts, while the lower-profile frame provides added stability across uneven ground.

Commercial-grade strength, built to take on the toughest jobs.
